

**Mechanisms of the Mind, Winter 2018**  
**Student Feedback**

**Student Comments:**

- Professor Gibson was very engaged in the material and willing to meet with students outside of class to answer questions or suggest how to improve our written responses. He was also helpful in suggesting potential psychology labs for research outside of class.
- Dominic provided valuable feedback, although I struggled with understanding what it took to get a good grade on responses
- He does a great job encouraging class discussion about topics.
- good discussion questions/style.
- He was a really good teacher. He listens, respects everyone's opinion, and filled in the occasional silences in our dialogue well.
- Kind, thoughtful, respectful, encouraged discussion
- He led discussions well
- He always seemed interested in the topic and was excited to share his take and hear ours as well.
- Dominic was very good at making the class flow well, there were never any points where we would go very off topic or where I was confused on how different points were related.
- He gave good feedback on the discussion posts and pushed us to think deeply about the topics during discussion
